

This will describe the process of registering your work email address for a Vital Dynamix support account which will enable you to submit support tickets for Vital ACS as well browse our growing knowledge base article library.

A representative from the Vital Dynamix team will add your organizations domain to the help desk ticket system after which point you will be entitled to proceed in signing up for a Vital Dynamix help center account.

Follow the steps below to begin this process!

- Visit the following URL in your web browser (Microsoft Edge, Firefox, Chrome)
 - <https://vitalacs.atlassian.net/servicedesk/customer/user/signup>
- After the entering the URL, you'll be presented with the "Sign up" page shown below:

- On the sign up page in the email field you'll need to enter the email address you have been assigned by your organization (work email). It is important that you type your email address correctly as this will be where your invitation link will sent. Double check that it has been typed correctly and click on the button that says "Send Link".
- After clicking the "Send Link" button you'll be presented with a message asking you to check your email. Proceed to your work email so that you can retrieve the invite email that was sent from Vital Dynamix.
- In your email inbox you should receive the invite email with the following subject as shown in the screenshot below:

- This email content should appear similar to the screenshot below:

Finish signing up to Vital Dynamix Help Center External Inbox x

- After filling in the required fields click on the “Sign Up” button to register your account after which you’ll be logged in and redirected to the Vital ACS help portal as shown below:

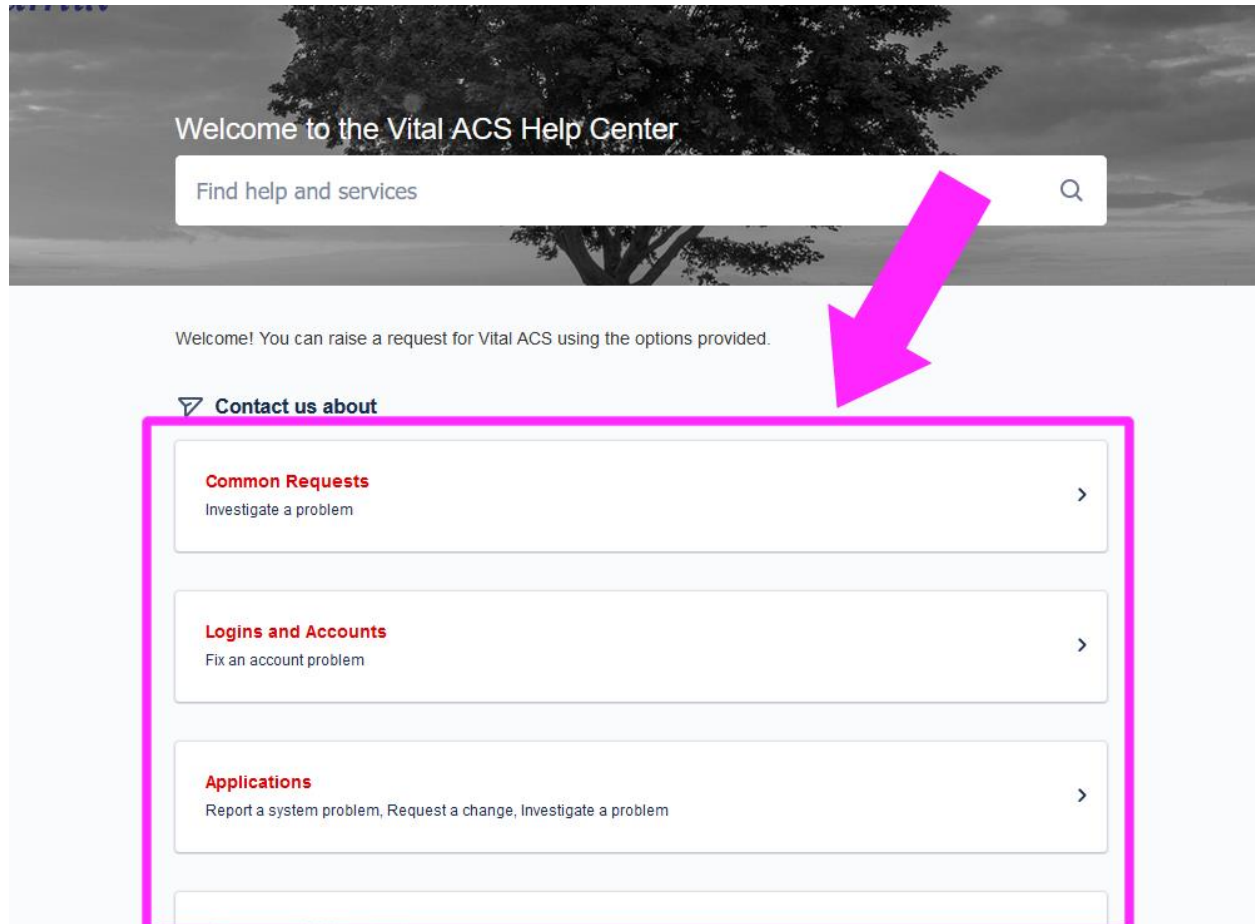

- From the Vital ACS help portal you'll be able to browse existing help articles, submit a support request or use the search form to find help content on the topic your experiencing issues with.

Submitting A Helpdesk Ticket

- Submitting a ticket for Vital ACS is a very simple process and is encouraged as it will provide an opportunity for the Vital Dynamix technical support team to address your issue quicker.
- To submit a ticket for Vital ACS from the main dashboard click on a category for the type of request you are trying to submit, as shown in the screenshot below:

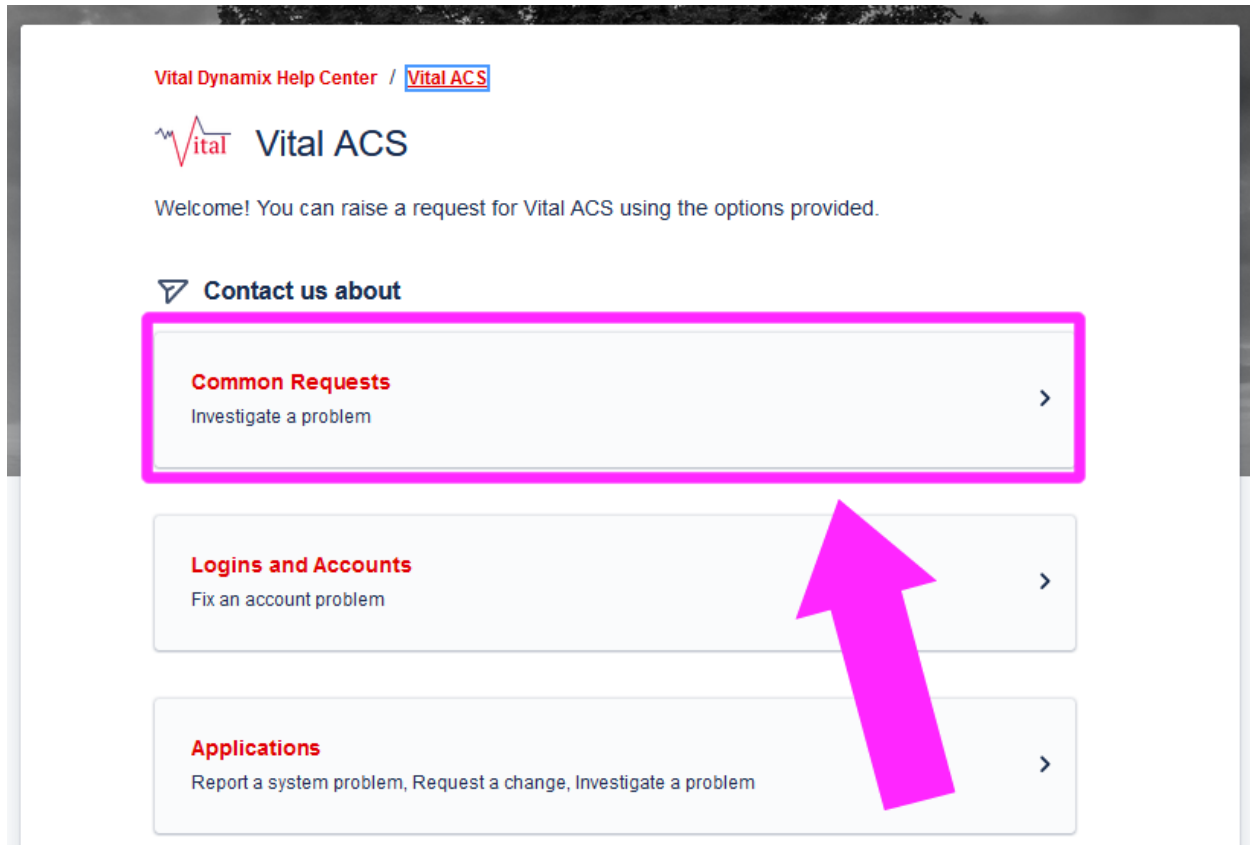

- The request page is broken down into four distinct categories. “Common Requests”, “Logins and Accounts”, “Applications”, and “Servers and Infrastructure”.
 - **Common Requests** are likely to be used most of the time. These types of requests might include an issue with your visits not showing on your dashboard for example.
 - **Logins and Accounts** are requests related to having difficulty logging into Vital ACS or other account type questions.
 - **Applications** are typically used by your organizations IT department to report a more widespread issue with Vital ACS. However, the application category can also be used to

submit a change request for us! If it's a feature that we think would help improve Vital ACS we would love to hear it!

- **Servers and Infrastructure** is almost exclusively intended to be used by your organizations IT department.
- In the following example we will illustrate how to submit a common request and what you can expect from us during this process.
- To begin the process, click on "Common Requests" as shown in the screenshot below:

- After clicking on the Common Requests section you'll be presented with a new pop up window asking what can we help you with? As shown in the screenshot below:

What can we help you with?

Investigate a problem

Create a problem to track the cause of one or more incidents.

- Click on “Investigate a problem” and you’ll be presented with a form which you’ll be able to complete detailing the issue you are experiencing as shown in the screenshot below:

A screenshot of a web form titled "Investigate a problem". The form is contained within a light gray border. At the top, it asks "What can we help you with?". Below this is a button with a wrench icon and the text "Investigate a problem" in red, followed by the subtext "Create a problem to track the cause of one or more incidents." Below the button is a "Summary*" text input field. The "Description" section features a rich text editor with a toolbar containing options for text color, bold, italic, link, list, and other formatting tools. Below the description is an "Investigation reason" dropdown menu. The "Attachment" section is a dashed box containing the text "Drag and drop files, paste screenshots, or browse" and a "Browse" button. Below this are "Urgency" and "Impact" dropdown menus. At the bottom left, there are two buttons: a red "Send" button and a gray "Cancel" button.

- Please be sure to provide as much detail as possible so that Vital Dynamix technical staff can assess and solve the issue as quickly as possible. After you have finished filling out the form click on the send button.

- The ticket has now been created and Vital Dynamix technical support will be notified of the issue. You'll be presented with a summary screen as shown in the screenshot below:

A screenshot of a ticket summary page in the Vital Dynamix Help Center. The breadcrumb trail at the top reads "Vital Dynamix Help Center / Vital ACS / ACS-4". The main heading is "Having trouble logging in with my account". The ticket is created by "John Doe" on "Today 12:27 PM". The description is "I have been experiencing this issue since yesterday." The investigation reason is "Recurring incident", the urgency is "Critical", and the impact is "Minor / Localized". The status is "OPEN". Other details include "Notifications on", "Request type: Investigate a problem", and "Shared with: John Doe (Creator)". An "Activity" section at the bottom has a text input field with a placeholder "Add a comment".
